Cutting-Edge Implementation of Precision Medicine in Europe

Aula Medica, Karolinska Institutet, Stockholm, September 22-23, 2022

This symposium focuses on how precision medicine will change and improve diagnostics, treatment and prevention, as well as the potential for research and innovation within the precision medicine framework. Focus areas for the symposium are cancer, rare diseases and complex diseases. Best practice examples showcasing how precision medicine has been implemented in Europe will be presented as well as discussions on ethical, legal and technical implications of precision medicine.

Chairpersons:
Albrecht Stenzinger, Richard Rosenquist Brandell

Scientific committee:
Anders Edsjö, Anna Lindstrand, Bettina Lundgren, Frédérique Nowak, Karin Ekström Smedby, Melanie Börries, Nisar Malek, Peter Schirmacher, Robert Thimme, Sue Hill, Thomas Seufferlein

Confirmed speakers so far:
