

2nd INTERNATIONAL LIVER CANCER RESEARCH CONFERENCE 2023

Novel Directions in Liver Cancer Research

Heidelberg, Germany | 11–13 October 2023

The Conference will cover all research aspects of human liver carcinogenesis, from its initiation by chronic liver disease to its progression into metastatic cancer, its functional dissection, and the identification of novel preventive, diagnostic, and therapeutic approaches. Poster sessions and workshops will provide ample opportunities for the discussion of recent research results.

SESSIONS

Liver cancer – the impact of etiology
Early hepatobiliary carcinogenesis
Tumor cell microenvironment and immune mediated mechanisms of hepatocarcinogenesis
Microbiome and tumor metabolism
Tumor cell plasticity
Genetic and epigenetic alterations and targeted therapies
Innovative therapies and novel therapeutic approaches

REGISTRATION

Free admission. Registration required due to limited number of participants.
Register under www.livercancer.de from 1 March 2023.

VENUE

German Cancer Research Center (DKFZ)
Im Neuenheimer Feld 280
69120 Heidelberg

SCIENTIFIC ORGANIZATION

P. Schirmacher (Heidelberg)
S. Roessler (Heidelberg)
M. Heikenwälder (Heidelberg/Tübingen)
A. Saborowski (Hannover)
N. Malek (Tübingen)

ORGANIZER/CONTACT

SFB/TR 209 + LCCH + ZPM
University Hospital Heidelberg
Im Neuenheimer Feld 224
69120 Heidelberg

Dr. M. Skunde
